

Fig. 1

Source Field Data	Source Field Definition
Transaction ID	Unique identification number for each transaction record
Practice ID	The ID of the revenue Practice associated with the transaction
Practice Name	The name of the revenue Practice.
Department ID	The ID of the revenue Department associated with the transaction
Department Name	The name of the revenue Department
Posting Date	The date the transaction record was posted.
Service Date	The service date of the associated transaction
Final Bill or Billed Date	This is the Date the Host system creates for a Final Bill
Account ID	The ID of the account record (Guarantor) associated with the transaction
Account ID Suffix	The patient account number suffix. In many cases, this is a conditional field. This field is common on many 'Guarantor' or 'Family' Account IDs. It will denote "Family Account".
Encounter Form Number	The encounter form number corresponding to the charge transaction.
Visit ID	The visit number within the account that corresponds to the transaction. This number uniquely identifies the visit within the account only.
Procedure Quantity	The quantity of the procedure associated with the transaction.
CPT Code	The procedure code associated with a transaction.
RVU Value	The RVU value associated with the transaction.
CPT Modifier	The Modifier associated with a transaction.
DiagnosisCode (ICD9) One	The ID of the first diagnosis associated with a charge. This may be considered the primary diagnosis of the transaction.
DiagnosisCode (ICD9) Two	The ID of the second diagnosis associated with a charge. This may be considered the secondary diagnosis of the transaction.
DiagnosisCode (ICD9) Three	The ID of the Tertiary Diagnosis associated with a charge.
DiagnosisCode (ICD9) Four	The ID of the fourth diagnosis associated with a charge.
DRG	The Diagnostic Related Group classification. This field is optional.
Payer ID (Primary)	The ID of the primary payer record currently associated with this transaction record. This payer is associated with the current coverage of the transaction.
Payer Name (Primary)	The name of the primary payer.
Primary Insurance Product type	This is the name/description of the insurance product type for the primary insurance. For example, HMO, PPO, EPO, POS, Medicaid
Payer ID (Secondary)	The ID of the secondary payer record currently associated with this transaction record. This payer is associated with the current coverage of the transaction.
Payer Name (Secondary)	The name of the secondary payer.
Primary Payer Contractual Reimbursement Amount	The currency amount of payment for the transaction by the Primary payer as negotiated by contract with the practice.
Secondary Payer Contractual Reimbursement Amount	The currency amount of payment for the transaction by the Secondary payer as negotiated by contract with the practice.
Secondary Insurance Product type	This is the name/description of the insurance product type for the secondary insurance. For example, HMO, PPO, EPO, POS, Medicaid
Place Of Service ID	The ID of the place of service associated with the transaction
Place of Service Name	The name of the place of service. For example, Inpatient, Outpatient, Office, Rehab, SNF etc.
Financial Class ID	The financial class ID of the current payer or self pay
Financial Class Name	The name of the financial class: Medicare, Commercial, Self-Pay, BCBS etc.
Billing Provider ID	The ID of the billing provider of the transaction
Billing Provider First Name	Please provide physician's first name
Billing Provider Last Name	Please provide physician's last name
Other Provider ID	The ID of another provider (not billing) associated with this transaction. For example, Performing Provider or Resident

Fig. 2A

Source Field Data	Source Field Definition
Other Provider First Name	Please provide "other" physician's first name
Other Provider Last Name	Please provide "other" physician's last name
Referring Physician Id	The ID of the physician who referred the patient
Referring Physician First Name	The first name of the physician who referred the patient
Referring Physician Last Name	The last name of the physician who referred the patient
Transaction Code	Code to distinguish type of transaction
Transaction Type / Description	Charge, Payment(patient/insurance/copay), Adjustment
Transaction Amount	Amount of the transaction – even \$0.00
Payment Match ID	Used to match the payment transaction to the original charge
Denial ID	The ID of the remittance code associated with a Claim Denial action record.
Medical Record Number	The Medical Record Number is the unique permanent identifier assigned to a patient. This number is unique from the Account ID.
Patient ID	The Host System ID of the patient associated with the procedure (the person who saw the physician), not the guarantor – may be same as Medical Record (but usually different)
Patient First Name	The first name or initial of the patient associated with the procedure **Optional
Patient Last Name	The last name or initial of the patient associated with the procedure **Optional
Patient Address	The whole address of the patient associated with the transaction please concatenate Address 1 and 2 if needed
Patient City	The city of the patient associated with the transaction
Patient State	The state of the patient associated with the transaction
Patient Zip Code	The mailing zip code of the patient associated with the transaction
Patient Phone One	The telephone number of the patient associated with the transaction
Patient Phone Two	A second telephone number of the patient associated with the transaction - Work, Mobile etc.
Patient Social Security	The social security number of the patient associated with the transaction
Patient Sex	The gender/sex of the patient associated with the transaction
Patient DOB	The date of birth of the patient associated with the transaction
Patient Email	The email contact address of the patient associated with the transaction **Optional
Appointment Date	The date of the patient visit associated with the transaction.
Appointment Time	The time of the patient visit associated with the transaction.
Appointment Reason	The reason for the patient visit associated with the transaction.
Appointment Reason Description	The description of the reason for the patient visit associated with the transaction.
